Safe work is a human right

Two million workers die every year because of bad and illegal working conditions.

Many employers use informal work to avoid their legal responsibilities.

Stop exploitation by negligent employers.

All workers have the right to:

- ◆ a safe and healthy working environment
- ◆ organise in a trade union
- ◆ collective bargaining
- ◆ representation and participation
- ◆ information and training
- ◆ refuse dangerous work without victimisation

Join the union
Fight for your rights
strong unions = safe jobs
